

THILAGAVATHI MC

Software Engineer

Tambaram 600059 | +91 9381659870 | thilaga2k2@gmail.com

WORK EXPERIENCE:

AVASOFT

Identity & Access Management (IAM) Engineer | 30 Jan, 2023 – 18 Oct, 2024

- Automated user lifecycle management for 2,000+ users, reducing manual effort by 80%.
- Integrated Okta, Entra, and 1Password for SSO, RBAC, and MFA security.
- Designed and implemented IAM automation using Okta Workflows & Power Automate.
- Developed security policies for access provisioning, role management, and deprovisioning.
- Automated password resets, distribution lists, and shared mailbox creation.

Self-Employed | Oct 2024 – Present

Full Stack Developer (Freelance & Projects)

- Built an employee Management System using MERN stack.
- Developed a Parking Lot Management System with role-based authentication.
- Created a College Event Website, improving user engagement and event registrations.

KEY PROJECTS:

- Cross-Tenant Sync (B2C) Automation** – Implemented secure identity synchronization across multiple tenants using Okta & Microsoft Entra.
- Employee Management System** – Developed a React & Node.js app with RBAC for secure profile management.
- IAM Ticketing Automation** – Automated repetitive IAM tasks, reducing manual effort in onboarding, offboarding, and access management.
- GRC Automation** – Designed IAM governance policies, automated access reviews, role certifications, and compliance reporting to meet ISO 27001 & SOC 2 standards.

EDUCATION:

Bachelor of Engineering (B.E.), [EIE]

Panimalar Engineering college | 8.5 CGPA | Aug, 2019 – 17 May, 2023

SKILLS:

Identity & Access Management (IAM)

- Identity Lifecycle Management – Okta, Microsoft Entra ID
- Security Automation – Okta Workflows, Power Automate
- Access Controls – SSO, RBAC, MFA, Conditional Access Policies
